### ITALIAN CUISINE

March 17, 2020

Dear Valued Customer, Friends, and Community:

The Mama Mia 44SW family cares deeply about the health, wellness, and safety of our customers, employees, neighborhood friends, and everyone's family. Our first priority is to ensure that we are doing our part to prevent and protect against the exposure of the Coronavirus (COVID-19). To that end, we have strengthened our efforts and have educated our employees on preventive measures provided by the CDC and NYC Health Department.

Here's What We Have Been Doing Since the Outbreak Became a Concern:

- We are sanitizing and disinfecting the entire restaurant daily;
- We are constantly cleaning all surfaces before and after use;
- All employees wear latex gloves at all times;
- Creating social distances work spaces for our employees;
- Our dishwashing machine is set at the highest temperatures possible for maximum cleanliness; and
- As we always do, all food is kept refrigerated, heated, and held at the required temperatures as per the NYC Health Department to ensure the safety of our food and the health of our customers.

We greatly appreciate your business so we can keep our employees working throughout this crisis. Please continue to order from us and we are very happy to deliver our food to your doorstep.
